RUSTOMJEE DHUNJEESHAW, Esq. (Messrs. P. F. Cama & Co.) E. H. POLLARD, Esq. The Scheme of a Local Bank for this Colony with Bromohes at the most important places in China, has been in contemplation for a very long period.

The local and foreign trade in Hongkong and at the open ports in China and Japan lies increased so rapidly within the last fow years that additional Banking facilities are felt to be required. The Banks now in China being only branches of Corporations, whose head quarters are in England or India, and which were formed chiefly

with the view of carrying on exchange operations between those countries and China, are scarcely in a position to deal satisfactorily with the local trade which has become so much more extensive and varied than in former years. This deficiency the Hongkong and Shanghai Banking Company will supply and will in fact assume the same position with relation to this Colony as the Presidency Banks in India, or the lanks of Australia in their respective localities. The Establishment of a Mint in Hongkong, providing an adequate supply of proper currency, will render a local Banking medium essential to carry out its operations, and the almost certain disappearance of the existing Comprederic system (so far as money is concerned) will also onsure

THESE Spacious Rooms, long and favorably Melbourne, Adelaido, Bristane, Habart-town, &c. Hanks becoming in course of time the exclusive medium for the transaction of the monetary operations connected with trade. For the anticipated success of this enterprise there are therefore ample grounds; and the great prosperity which has attended the working of other local associations in China clearly shows

The Bunk will commence operations simultanes ously in Hongkong and Shanghai and as the importance of its business at the latter place must be very great, it is intended to establish a local Board of Directors there for more effectually meeting the work. As circumstances render it advisable the Bank will establish Branches at other at the godowns of Mr J. J. dos Remedios on

In the distribution of Shares Hongkong and Shanghai will equally participate. Shares will also be reserved for the other ports in China and Japan. and Grant Loans on approved Banking Scourt- and for persons residing elsewhere, who are directy interested in the China Trade. Applications for Shares must be eddressed unti further notice, to the Provisional Committee, care MESSES. DENT & Co.

The Shipping Interest.

THE British shipowner is living in the present the cotton manufacturer in the future. We are assured that the shipbuilding yards of the Thames. the Mcraey, the Clyde, the Tyne, and Wear, never presented a scene of more active or more profitable judustry. Every day new timber and iron vessels are launched on all our great shipbuilding streams. The iron shipbuilding varies ero particularly active. New ships cannot, indeed, be built fast enough. The American war has thrown an enormous amount of war broke out, two-thirds of the American com- is position to use gun-cotton as a substitute for House.

merce were carried in American vessels; in powder, - Told. 1663, three-fourths word carried in foreign (principally English) hottoms, The completeness of this revolution enough to realized without a glanco The encinies of "Manhattan" latve rousen to at the magnitude of the figures. The foreign rejoice that he has written a book. His letters trade of New York in 1850 may be taken at from New York to the Standard were sufficient t 360,000,000 dollars, of which 248,000,000 worth prove that he was a reckless writer, careless of was carried in American, and 120,000,000 inforcigo his own reputation, and ready to attack that of reacls. As the war wert on the propotions were any man or woman with whom he disagreed; but reversed, and in 1863 the total amount of com- they did not convict him of being a literary lepormerce was at the rate of 352,000,000 dollars of one who should be kept at a distance as uncloan. which 260,000,000 worth was carried in foreign The evidence which they did not offer is copiously bottoms, and only 92,000,000 in American vos- afforded by the novel which forms his latest work. sels. In this ampline of prosperity there appears in the distance the cloud no bigger than a man's autobiography Marian Morph, the hoir, is "Manhand. Our sea-going mercantile marine exceeds battan himself, and the greater part of the perthat of any other country. The increasing use of sonages who figure on or disfigure its pages will be steam and iron promises (say our shipowners) to quickly recognised by anyone who is well acquaintgive to Great Britain an annually increasing pro- ed with the gossip of New York. They represent. portion of the carrying trade of the world. But the mon and women in whose society the author we must keep out of war. It is not enough to has spent his life; but he does not depict them in thut up the fleets and blockade the ports of un flattering volours. He brings before our eyes it enemy, if she can succeed in commissioning a dreasy vision of sin, and when we close his sosmall number of swift steam cruisers like the lunes, it is with a sense of relief at having got rid Alabama .- After a fow captures, merchants and of a hideous dream. The men are shielly sonsualnaturance companies become alarmed. Up go the ists, who ought to be ducked in a horse-trough, or sea-risks, and before long our sea-carrying trade swindlers, whose proper abode would be a house would mevitably be transferred to neutral flags. of correction. The women are, in many instances of correction. The Liverpool shipowhere have just signed a peti-tion to the House of Commons with the those who are intended to produce a favourable view, first, of representing the enormous in- impression are a libel on the ladies of America. jury to the shipping interest of this country The last unpleasant of the set is a Mrs. Nordleim, which would be enused by an interference in, a young wife aged sixteen who says of her first foreign trouble or quarrels; secondly, to pray for bisband "I married him to obtain two thousand such an alteration in the Foreign Enlistment dollars a year. It is settled upon me and as long Act as may prevent the construction in Briwas ports of ships destined for the uses of belli- be pleases—keep as many women as he pleases gerents, They declare that we ought to depreter ships in the exact ratio of our shipping and my business. The exact ratio of our shipping and my business. The exact ratio of our shipping and mercantile wealth. They repoil with dismay from the losses, direct and indirect, which throaten such vast interests in case of bostilities. It may, howevor be doubted whether any alteration in our Foreign Englistmen. Act wound avert such a pnralysis as has falled up on the mercantile marine

of the United States.

The shipping interest is peculiarly liable to alternations of sunshine and gloom. Less than twenty years ago the peace of the metropolis was we should be judined to think that any one whom menaced by a procession of " protected" senmen. "Manhatthn" abused must be worthy of special who carried their grievenees to the Ministe; at Whitehall, and told him their tale of listress and want of employment; they afterwards benefited ports, consequent upon the Free-trade measures mostifying if we had been the D. The D. The D. of Sir R Peel. The Russian war next created a an finding that all about the state of the state o sudden demand for transports, and millions of the haviour; it is therefore with pleasure that we public money flowed into the pockets of shipowners who had versels large enough to carry soldiers. stores, and ocale to the Crimes. This sudden glesmof prosperity naturally gavenetimulus coship- shadow," but a man of no foolish scruples-one, Suilding, and, when ponce was made, the shipping interest could not, without disturbance. adapt itself to the slitered state of things. The for a nowspaper." To him the present work is Indian Mutiny caused a renewed damand for tran- dedicated, and it would have been difficult to have sports; but when the ships so taken up arrived found a name more fitted than his to be associatat Calcutta with soldiers and ammunition, they ed with such a composition. - 16id found a difficulty in getting return cargoes, in Marien. By Manhattan Three vels. London: Saun-consequence of the diminished production of the ders & Otley. usual articles of Indian export. In 1859 we had su aggregate meeting of shipowners and ship. builders at the London Tavern to represent the niarming depression of the shipping interest, which they said "threatens the ruin of all who are engaged in the varied and extensive pursuits connected with navigation." Another turn or two of Fortune's wheel has given them plenty of em- A ployment at remunerative freights. But a word of caution at this moment ought not to be re- tf Hongkong, 30th December, 1863. garded as ill-timed. There is such a thing as ever-production in ships as well as in cotton and, after a feverish flush of prosperity, a reaction is inevitable. There is an opinion among monetary Youngen's de. in do. price \$13. men that the war in the United States will be in some manner brought to a termination during the present your. The American shipowners will then re-pussess themselves of their former thate in the carrying trade of the world, and British shipowners and joint-stock companies may find | ourcfully selected from the best London themselves, with more vessels then they can pro- and Paris markets viz:fitably employ - The London Review.

Professor Abel, who has so carefully investigated the subject of gun cotton, thus sum up the peculiar properties of this explosive substance:-

residue. It is far more readily inflamed by poworful percussion than gunpowder; the compression of any particular portion of a mass of loose gun-con ton between rigid sprinces, will prevent that part from burning when heat is applied. The products of combustion of gun-chtton is redden litmus, and contain nitrio oxide, hence they have a corresive action on gun-metal. In the open air it may be inflamed, when ic netual contact with gunpowder, without igniting the latter; in a contined space (as in a shell, or the burrel of a gun) the almost instantaneous rapidity of its explusive produces effects which are highly destructive, as compared with those of gunpowder, while the projectile force exerted by it is comparatively small. For these reasons Professor Ablo-who is chamist to the
